## **Announcement**

### **Subject: Relaxed Covid-19 Measures**

-----

With the world Covid-19 pandemic broadly under control, and the report of the World Health Organization (WHO) indicating that the current numbers of severe Covid-19 cases and related fatalities become significantly limited, same as the overall Covid-19 situation in Thailand, the government has then eased nationwide COVID-19 controls and relaxed the measures to reduce impacts to the general public and the operators so that they can live normal lives and move forward with their social and economic activities.

To be in line with the current situation, TPTI hereby amends the Covid-19 preventive measures under TPTI announcement dated June 28, 2022 on relaxation to Covid-19 preventive measures to only the measures on: the screening point before entering the training centers for past travels check; ATK results to be taken within 24 hours in advance of the training; and all delegates are required to wear face masks correctly at all times while in the closed building, all for the safety of the delegates.

TPTI would appreciate your strict compliance in this matter until further notice.

Announced on this 3<sup>rd</sup> day of November 2022

Puangthip Silpasart  
Executive Director
